Aero Power Hopper

APH-1/3/6/9/18

Utilizing air stream, Aero Power Hopper serves as hopper, dust remover and blender.

- Best suited for molding with dust and foreign material removal.
- Utilizing conveyance power for blending (no additional power needed).
- Material blends right on injection-molding machine (no segregation during conveyance.)
- Simplified structure offers easy cleaning.
- No cracking or electronic static charge of mechanical blending.

Unit:mm
